Kokio darbo ieškau? Mano teigiamos savybės

2. From April 2016 and beyond, I am (currently) working in the municipality of Kamez, Tirana, as a specialty for irrigation and drainage.

On March 1, 2020, 15 years had passed since the first working day. I haven't stopped working for 15 years. All the time I alternatively worked in the field in the office.

General social data

I come from an intellectual family. My father is (was) a veterinarian, my mother was an economist. My wife is also well trained in 1. Agro-Food Technology and 2. Continuing Education (apprenticeship).

I am a very committed person at work who is characterized by fair relationships with colleagues, superiors and subordinates. I am serious, cooperative and eager to learn new things.

My life and my social activities do not include addiction (alcohol, drugs and immorality).

All of these activities serve the family and the positive values of society.

With regard to my training, I declare absolute legal responsibility for the correctness of the data contained in my CV. I say the same thing about my work experience.

In this connection, allow me to repeat my request to be employed in your company.

Ask for forgiveness, for the "concern" I remain in the hope that we will have further messages.

With respect

Ilir Nikoci
