### Kokio darbo ieškau? Mano teigiamos savybės

As a finishing carpenter, I specialize in detailed woodwork, ensuring high-quality finishes on furniture, doors, and interior structures. My work includes installing trim, molding, cabinetry, and other final touches that enhance the aesthetic appeal of spaces. With experience in both residential and commercial projects, I focus on precision, craftsmanship, and delivering excellent results. My skills in problem-solving, attention to detail, and working with various materials allow me to complete projects efficiently while maintaining quality.

### Kompiuterinis raštingumas

**Basic Computer Skills:** Understanding how to use operating systems (Windows, macOS), internet browsing, and file management (saving, organizing, and retrieving files).

**Design Software:** Learning programs like AutoCAD, SketchUp, or other 3D modeling software that are commonly used in carpentry for creating designs and blueprints.

**Project Management Software:** Familiarity with tools like Microsoft Excel, Google Sheets, or project management platforms (e.g., Trello, Asana) to organize tasks, schedules, and resources for carpentry projects.

**Online Communication Tools:** Email (Outlook, Gmail) and video conferencing tools (Zoom, Microsoft Teams) to communicate with clients, contractors, and team members.

**Estimating Software:** Programs like PlanSwift or ProEst, which are used for creating project estimates and managing budgets in carpentry projects.

### **Konferencijos, seminarai, mokymai**

**Carpentry Skills Workshops:** Hands-on workshops focusing on techniques like joinery, cabinet making, or furniture design.

**Construction and Building Conferences:** Events such as the International Builders' Show (IBS) or World of Concrete that highlight trends, tools, and technologies in the carpentry and construction industries.

**Sustainability Seminars:** Focus on eco-friendly carpentry practices, green building techniques, and the use of sustainable materials.

**Safety Training:** Workshops on carpentry safety standards, personal protective equipment (PPE), and accident prevention on job sites.

**Leadership and Management in Carpentry:** Seminars on improving project management, leadership, and communication skills within carpentry and construction teams.

**Apprenticeship Programs:** Long-term training for developing specific skills in areas like finishing carpentry, cabinetry, or framing.
