Kokio darbo ieškau? Mano teigiamos savybės

My name is Syed Usama bin Akhtar, and I am a computer science engineer. I would like to briefly introduce my academic background. I earned my bachelor's degree in computer science from Ilma University in Karachi, one of Pakistan's most reputable institutions. During my studies, I gained valuable experience in the IT (Information Technology) field, specifically working with cloud technologies.

My motivation for working in Lithuania comes from the numerous job opportunities available for computer science engineers. I believe that by sharing my knowledge and work experience, I can contribute positively to the field. Additionally, I look forward to learning from other professionals, which will help enhance my profile.

My specialties are problem-solving and resolving technical issues by researching solutions in different browser engines such as Chrome, Mozilla, Microsoft Internet Explorer, Microsoft Edge, and Linux browsers.

I also specialize in Microsoft Excel, Word, and PowerPoint.

Regarding my personality, I am an outgoing and enthusiastic person with a friendly nature, meticulous attention to detail, and accepting new and exciting challenges where available. I can learn new concepts and applications quickly and work independently and with a team. My peers and colleagues describe me as a hard-working, dedicated, cooperative individual who will always go the extra mile

Pageidaujamas darbas	Kompiuterių technikai
