### **Kokio darbo ieškau? Mano teigiamos savybės**

I am looking for a beginner software engineering job. I have a B.Sc. in Computer Science, with a focus on algorithms.

My most common used programming languages are Python, C/C++ and Java. Within my time at the university I made several projects in a team with the scrum method using git to work parallel with my fellow students. There I got also insight into sql/databases and Web-development using Typescript, Node.js, Html/CSS.

I am easily able to learn new languages and concepts and use those at appropriate places in the program. This is possible through my critical thinking and problem solving skills.

Lastly I am an open-minded, friendly person, who is a good listener giving my objective and honest opinion on any subject.

Pageidaujamas darbas                      Programuotojai

Pageidaujama darbo vieta                      Kaunas, Vokietija

### **Kontaktai ir pagrindinė informacija apie mane**

Lytis    Vyras

Gyvenamoji vieta                              Vokietija

Telefono numeris                              *Norédami matyti kontaktus, turite  
[Prisijungti](#)*

El. pašto adresas                              *Norédami matyti kontaktus, turite  
[Prisijungti](#)*

### **Išsilavinimas**

Laikotarpis                                      **nuo 2018.04 iki 2020.03**

Išsilavinimas                                      Aukštėsnysis

Mokymosi įstaiga                              Technische Hochschule Mittelhessen

Išsilavinimo sritis                              Informatika

Sritis    Algorithms
