Kokio darbo ieškau? Mano teigiamos savybės

Software engineer with 7 years of experience with enterprise Java and Kotlin including Spring framework ecosystem which was acquired in agile

(Scrum/Kanban) environments. The experienced is comprised of work with different systems and contexts from basics like visualisation of SQL input to

Single Sign On integration between several applications, development and support of e-commerce web applications, to more recently, real-time OTT

messaging API ran by a cluster of micro-services enabling businesses to reach their clients through social channels . Have always been working closely

with back-end, front-end, dev-ops, business analysts and product owners. Constantly helped junior developers to enable them to integrate into a team

easily and fast.
