Growing up in a village, I have always been surrounded by livestock. At home, I actively care for 3 cows, 2 buffalos, and a boiler farm which has taught me the basics of animal husbandry, feeding

Europe's address: Maintaining clean environments. This daily physical work has prepared me for the demands of farm labor, and I thrive in environments where perseverance and effort are valued.

I am a fast learner with a deep love for animals and a strong work ethic. Though new to professional dairy farming, I am confident that with just 1-4 days of training, I can quickly adapt to your farm's specific processes, whether it involves milking, herd management, equipment use, or sanitation. My goal is to grow my skills under your guidance and build a long-term career in dairy farming.

Key strengths I bring include:

- Physical stamina: Years of rural labor have prepared me for demanding tasks.
- Passion for animals: A genuine love for working with livestock, ensuring their well-being.
- Reliability: A never give up attitude and commitment to teamwork.
- Adaptability: Eagerness to learn new techniques and follow instructions diligently.

I am excited about the opportunity to bring my dedication to your farm and learn from experienced professionals. I am open to starting in an entry-level role and am ready to relocate immediately.

I would welcome the chance to discuss how my background and enthusiasm align with your needs.
