Kokio darbo ieškau? Mano teigiamos savybės

I was born in Minsk and moved to Lithuania for studying, so I have already got residence permit. Now I'm on the last year of Media and Visual Design program in European Humanities University, which means that I've already got some experience in graphic/editorial/web design. Photographing and image retouching are my advantages too.

During my studying, I learned almost the whole Adobe package, including Photoshop, Illustrator, InDesign and After Effects.

I like working with people, so I can communicate with customers and collaborate with a team. I have an experience of managing and promoting FB-page. To be more precise, that page is an advertisement of the whole design program of my University. Furthermore, I had an opportunity to organize some exhibitions and was a leader of different university projects.
