### Kokio darbo ieškau? Mano teigiamos savybės

I have various work experience, and I am opened to any new experience. I am also electrical and automation engineer with the technical skills in automation control and solar panels installation. In addition to that I have work experience in interior building. I speak Basic Lithuanian and I can work in team or individual under less supervision. Over the course of my studies, I learnt designing, and designing of Electrical circuits using AutoCAD, Orcad, Eagle, PCB, as well had experience in electronic troubleshooting activities, solid understanding of electrical engineering theory, industry-standard circuit design, testing tools, plus analytical abilities and technical skills necessary for engineering innovative designs and applications.

I am capable in effective communication whilst working alongside team members, as I had teamwork experience in a practical environment. I am adept and confident in my communication and management expertise, this foundation was built upon my work experience partime/summers in hotels and countless group projects throughout my studies especially one that involved producing potential solutions most of these groups in the allocation and distribution of assignments.

Furthermore, find my Cv enclosed and I hope to be accepted for this job in your company.

Thank you for your time, consideration, and forthcoming response, and for adding my name to your pool of potential job candidates.
